

CRL 218

This transportation dolly has been designed for use with the **SL 218 SA** subwoofer of the ARION 21 A line array system. It allows to facilitate the transport and manipulation of the elements, reducing and simplifying the system assembly process.

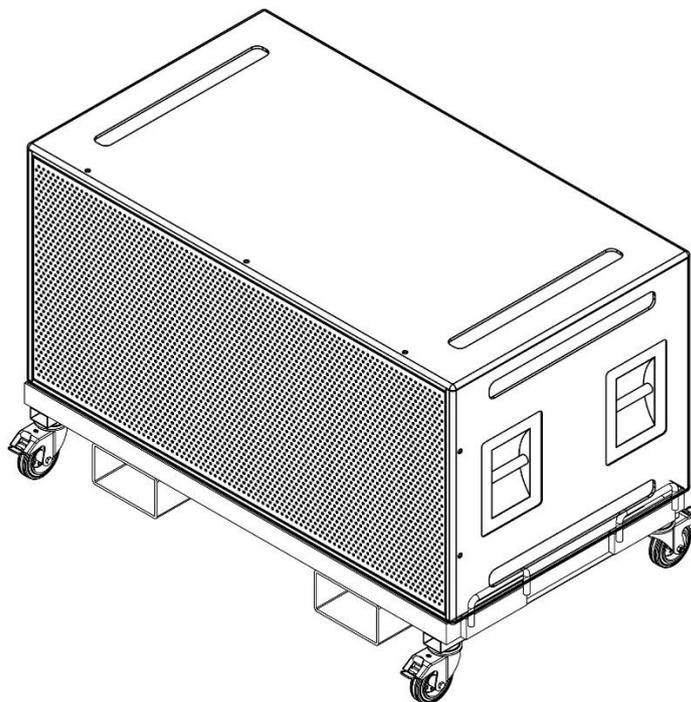

It consists of a frame where the subwoofer fits to prevent movement during transport. It incorporates inserts for forklift, facilitating its loading and unloading as well as the transport to the installation place. It has 4 wheels with auto-brake and 4 lateral handles.

TECHNICAL DATA

Material	Zinc plated iron, black color finished
Wheels	Ø 120 mm (with auto-brake)
Insertions for forklift	180x90 mm ----- separation up to 440 mm
Dimensions (W x Dx H)	1180 (1236 w/handles) x 665 x 220 mm
Peso	45 Kg

DEPLOYMENT AND ASSEMBLY OF THE SUBWOOFER
