

MAX 3 BT

This new mixer belonging to the MAX series is ideal for small installations, thanks to its small size and versatility, since it integrates a USB interface which allows to be connected to an external device and work as a sound card. This new model incorporates a Bluetooth module, this being possible thanks to the MAX 3 BT connection with mobile devices such as smartphones or tablets and play MP3 files through the mixer. Its size and weight (480 gr) makes it ideal for conferences, mobile shows...
