

MD 4 SPLITTER & BUFFER

The splitter is a 4 way DMX distributor with one input and four outputs, it is completely electric isolated between input and outputs, as well as output and output. Both DMX input and DMX output are provided with 3 pin and 5 pin XLR connectors, each DMX output has independent driver and DATA+ & DATA- indicators. In addition, a Link out/Terminate selector is used to prevent DMX output from the errors or bad function caused by DMX input.

Features:

Power: AC 230V-50 Hz

Dimensions: 483 x 186 x 44 mm

Weight: 3.2 Kg
