

SPLITTER 1202

This model is a 6 way DMX distributor with one input and 6 outputs, it is completely electric isolated between input and output, as well as output and output. Both DMX input and DMX output are provided with 3-pin and 5-pin XLR connectors, each DMX output has an independent driver and DATA+ & DATA- indicators. In addition, a Link out/Terminate selector is used to prevent DMX output from the errors or malfunction caused by DMX input.

Features:

Power Supply: AC 230V-50 Hz
 Dimensions: 483 x 186 x 44 mm
 Weight: 3.2 Kg
